

# SUPA SOY

Super Fibre Pellets Suitable For All Horses

SUPA SOY is a specially processed pure soybean hull pellet without added additives. It is low-glycemic index (GI) super fibre that slowly release cool energy to the horse. This pellet is ideal for horses that intolerable to cereal and grain. Adding 4- 5x portion water into 1 portion of supa soy will make the horse enjoy eating “porridge” type of feed.

## Typical Analysis

Energy, DE (Mj/kg)	12.0
Protein, %	12.0
Oil, %	3.0
Fiber, %	35.0

## Benefits

### ✓ Low GI

Provide low GI safe feeding solution for horse that cannot tolerate high grain diets or are at risk of developmental orthopaedic disease (DOD).

### ✓ Starch Safe

Starch free to ensure optimum bacteria levels are maintained in the hind gut to reduce the health risks of laminitis, colic and acidosis.

### ✓ Superior Digestion

Because of low lignin content, it provides excellent fiber digestibility (75% digestible fiber) when compared with other fiber source such as hay and chaff (40- 50% digestible fiber).

### ✓ Quality protein

High levels of naturally occurring amino acids for optimal growth, development and recovery from exercise.

### ✓ Easy to Prepare

Can be fed dry or wet. Quick soak times and can be fed within minutes.

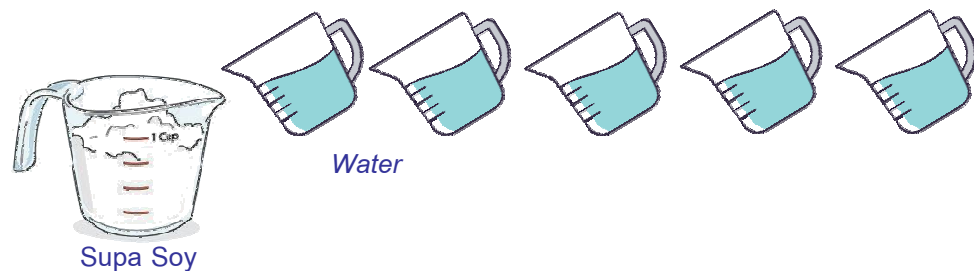

### ✓ Equine Friendly

Wet feeding offers a dust free feeding solution for horses with allergies or respiratory issues. Soft, easy to eat mash for dentally challenged equines.

## How to use SUPA SOY ?

- Introduced slowly into the diet over 10- 14 days.
- Can be fed together with Muesli and Cubes to meet daily requirements of your horse.
- For dry feeding, it can replace up to 75% of your horses total forage requirements.
- Can be fed wet by soaked with up to 5 times its volume in water. Use less water for a light fluffy mix, and more water for a porridge consistency mix. Feed is ready to be fed within 5 minutes of adding water.

## Daily Feeding Guide

Horse weight, kg	SUPA Soy, kg (Dry weight before adding water)
300	0.20- 1.00
400	1.00- 2.00
500	2.00- 2.50
