

# Fine Corn Meal

**Product Code: 4860**

Fine Corn Meal is produced from premium quality non GMO corn by debraned and degermed before the grinding process. It has very fine particle size (< 1.5mm) which make it very digestible for young animal such as piglets. Fine corn meal is low in mycotoxins as all dirt and outer layer of corn have been removed. Further it is packed directly from storage bin after process thus reduce risk of cross contamination such as animal fecal. Sow can benefit from this product due to its safety feature. It is particularly effective when used together with our Hi-E® Dehulled Full Fat Soybean Meal.

## Benefits:

- *Fine particle !*
- *High digestible nutrients !*
- *Low in fibre !*
- *Very low toxins !*

## Specifications
